

1st Annual Iowa State University Greenhouse Short Course

Friday November 7th, 2014

We are excited to announce the 1st Annual Iowa State University Greenhouse Short Course- we hope you can join us!

This year our program will feature presentations delivering cutting-edge information for greenhouse growers. Specifically, our program will feature talks on plant growth regulators, flowering, vegetative annuals, pesticide rotations, and pesticide safety. Additionally, we will be offering Continuing Instruction Course (C-CIC) credit for greenhouse pesticide applicators for an additional fee of \$35.00.

Location: Reiman Gardens, Garden Room

Directions and Parking: Reiman Gardens is located southeast of the ISU campus at 1407 University Blvd, Ames, IA 50011. For directions to the entrance from the intersection of University Blvd. and S. 16 St, click on the link below or paste the url into your browser address bar.

<http://www.reimangardens.com/wp-content/uploads/2012/04/directional-map.jpg>

An ISU campus map is also available online at <http://www.fpm.iastate.edu/maps/>

Parking is available in Lot S1 (next to the garden)

Further Information: For questions about program content, contact Chris Currey, at 515-294-1917. For registration questions, contact Colleen Johnson at colleenj@iastate.edu or (515) 294-1916.

Special Needs: If you need accommodations for a disability or a dietary restriction, please contact Chris at (515) 294-1917 or ccurrey@iastate.edu.

Change in Plans? If you cannot attend and have already registered, you may send a substitute. No refunds will be made.

Flowering of Annuals and Perennials- Increasing Color, Increasing Sales

3:00 **Dr. Chris Currey**
News from Lake Laverne- Iowa State University Greenhouse Research

4:00 **Adjourn**

Pesticide Continuing Education: The Iowa Pesticide Act provides two options for renewing pesticide applicator certifications. An applicator may choose to renew by re-testing every 3 years or by attending an approved instructional training every year.

Recertification by training requires participation in two hours of approved instructional training each year, in each category in which the applicator is certified. Some programs may be approved for more than one category and simultaneous credit hours are possible. Applicators will not be allowed to makeup hours that they missed in a previous year, nor will they be allowed to carry forward excess credit hours.

The Iowa Department of Agriculture and Land Stewardship approved the ISU Greenhouse Short Course (GSC) for two hours of recertification credit in commercial categories 3O, 3G, and 10 or as a Private Applicator. Applicators must attend the entire GSC to receive a certificate of attendance at the end of the day.

Registration Form

Iowa State University Greenhouse Short Course

Only one registrant per form. Please duplicate for additional registrants. **Please type or print legibly.**

Friday November 7th, 2014
 8:30 AM to 4:00 PM
